

Integrating Impacts of Air Pollution and Climate Change on Ecosystems

Budapest, 1st-2nd October 2014

An open science conference, held in association with the FP7 ÉCLAIRE Project, 'Effects of Climate Change on Air Pollution and Response Strategies for European Ecosystems' (www.eclairer-fp7.eu), will take place in Budapest, Hungary, on the 1st-2nd October 2014, following the 4th Annual ÉCLAIRE Project Meeting (29th-30th September).

The conference venue is the Radisson Blu Beke Hotel, Budapest: <http://www.radissonblu.com/hotel-budapest>

Further information, including abstract submission and links to registration: www.eclairer-fp7.eu/budapest-sci-conference

Abstracts for presentations and posters are invited for the following sessions (deadline 30th June):

S1: Emissions and Exchange Processes

S2: Emissions & exchange at local, European to global scales

S3: Ecological response processes and thresholds

S4: Ecological responses at regional and European scales

S5: Integrated risk assessment and policy tools

S6: Combined air pollution and climate change impacts on ecosystems

S7: Adding up the damage costs of nitrogen

S8: How is climate change altering the air pollution threat?

Please circulate this advert widely (including outside the ÉCLAIRE project) and note that scientists at all stages of their careers are encouraged to submit abstracts.
